

PRICING – Visit The Qure Demo Webpage to see real examples of each level of service

Search Project - \$100-\$400 for each framed question, depending on complexity of question (i.e. what is the evidence for treatments of localized prostate cancer that have the highest survival rates?):

- ❖ Medical librarians find and store study abstracts that answer the framed question(s)
 - ❖ Create relevant search strategies
 - ❖ Retrieve relevant study abstracts (retrieval and storage of full text journal article are charged separately, usually \$10-\$30 per article)
 - ❖ Review each abstract for acceptance or rejection
- ❖ Study abstracts (+ full text articles as needed) stored in a user-friendly, password protected web-based custom portal
- ❖ Provide client/physician with training on library platform, as needed

Search Project + Custom Analysis Report - \$100-\$300 for each framed question, depending on complexity of question (i.e. what is the evidence for treatments of localized prostate cancer that have the highest survival rates?) + \$50 per hour for analysis of each relevant study:

- ❖ Medical librarians find and store study abstracts that answer the framed question(s)
 - ❖ Create relevant search strategies
 - ❖ Retrieve relevant study abstracts (retrieval and storage of full text journal article are charged separately, usually \$10-\$30 per article)
 - ❖ Review each abstract for acceptance or rejection
- ❖ Study abstracts (+ full text articles as needed) stored in a user-friendly, password protected web-based custom portal
- ❖ Provide client/physician with training on library platform, as needed
- ❖ ***Plus \$50/hour – Evidence based analyst reviews each relevant study and summarizes relevant findings in a user-friendly customized report***

Evidence Database – \$300-\$500 per study to analyze/digitize into our analytic platform

- ❖ Relevant data from each accepted study is extracted and stored into a user-friendly database/platform
 - ❖ i.e. treatment information, patient characteristics, , outcomes, etc.
- ❖ Creation of password protected web-based evidence database that answers the framed question(s) with real data/evidence
- ❖ Provide client/physician with training on database tools and analytics
- ❖ Note: A custom analysis report can be added to this service, as needed. See above.
